alat wood

ALAT LOUNGE SOFA

A sofa of titanic proportions.

Monumental and Monolithic. “Alat” which means “winged” in Catalan, takes basic geometric cues from brutalism, giving it a heavy appearance and a feeling of robustness that contrasts with the visual lightness of the lateral wings.

Alat fuses the sofa with the archetypal lounge, making it useful as both while defining itself as something totally reimagined.

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

ALAT WOOD

It is a variant in the ALAT collection presented in a single dimension, 350cm long. The main structure is made of natural fir wood, without any treatment or protection.

The construction accessories are made of stainless steel and aluminum.

The cushions of the Alat collection are formed with comfort foams of different densities, covered with a protective waterproof inner cover, and the outer shell construction with Silvertex vinyl fabric in white (Ice) or black (Carbon) , in Acrylic Sunbrella Savane Zinc color and in Agora Bruma

ALAT MODULAR LOUNGE SOFA

A sofa of titanic proportions.

Alat is a simple invitation to lie down informally, a sassy proposal for relax with no complex, provocative because of its shape and dimensions.

With an aluminum structure texturize powder coated painted, it comes in 2 options of color, white and charcoal (dark gray). The cushions are upholstered in Sunbrella Savane fabrics, Zinc color

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

**MODULAR SOFA**

Alat is a collection of lounge sofas of titanic proportions. Of austere appearance, its shape permits various modular configurations. Its winged sides give the user multiple ways of sitting or laying down.

The structure is constructed either from extruded aluminium profiles of varying dimensions and powder coated in the oven and available in two colours or a solid pine timber frame.

The cushions of Alat are filled with various densities of foam. wrapped in a protective cover and housed in an exterior case in Silvertex or Sunbrella fabric.

BOLET

Glazed ceramic outdoor stool

Bolet is both an exercise in functionalism and an ode to craftsmanship. The geometry of Bolet is achieved with a simple transformation to the clay extrusion process. Making it useful as both a stool and occasional side-table. Fired at a high heat, it is able to withstand extreme changes in temperature making it ideal for both indoor and outdoor use. Dip-glazed in traditional La Bisbal colours, the hardness of its material is softened with a generous natural cork base and three holes on top provide a convenient way of moving it with ease.

Utilitarian, local and warm. Bolet embodies a new approach to a traditional proce

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

**BOLET**

Bolet is a stool/occasional side table made from traditional ceramic, hardened at 1070°C in the kiln, Bolet is resistant to the harshest changes in temperature and is able to withstand extreme climates.

It comes in various traditional glaze colours.

coqueta

COQUETA

A woven wicker armchair

Calma has rescued one of Spain's great design classics for its new collection. Bestowed with a Gold Delta Award in 1988, the country's most coveted design award, the Coqueta chair by Pete Sans is both a carefully balanced and a radical piece of design. A milestone in the history of Spanish design, a basket-weave seat is suspended from its seamless stainless steel structure, all of which is held together with its most identifiable detail: a buckled belt which spans the length of the chair.

DESIGN:
PETE SANS

DESIGN: PETE SANS

Ref. 341 inox

COQUETA

A design classic in the history of Spanish design, this armchair is characterised by its woven basket seat that is suspended from a stainless steel frame. These components are structurally strengthened by a buckled belt that spans the length of the chair, providing tension. Available in two finishes, a natural and a black, where the former is characterised by a natural colour woven seat and polished stainless steel frame. The latter is characterised by an all black look, with a black-coated frame and a black woven seat.

LOU

Relaxed soft-furniture collection

Lou is the result of the first collaboration between the studio of Inma Bermúdez and Calma. The collection comprises three pieces: a pouf, a lounge chair and a sofa. We like to call them “soft” furniture. The seat cushion is made from various layers of viscoelastic, making it remarkably comfortable. When removed during the winter months, Lou still retains a sculptural appearance due to its delicately light wire frame.

DESIGN:
STUDIO INMA BERMUDEZ

DESIGN: STUDIO INMA BERMUDEZ

**LOU**

This is a complete collection for relax , composed of armchair, 2 seater sofa, pouf, coffee table, gardener and brazier.

The structure is made of solid steel rod, with previous protection of zinc and powder coated painted.

The seat cushions are formed by a combination of comfort foams, with an inner waterproof cover of technical fabric and heat-sealed seams, and an outer sheath confection with Sunbrella LOPI acrylic fabric, in different colors. The collection is accompanied by additional decoration cushions.

MARIA

Sra Maria, humble, rather simple, popular, Sra. Maria does not like to draw attention but always makes us look good. You can leave it at any corner where well and quietly will make what it has to do: sit well.

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

**ARMCHAIR**

La estructura es de tubo cuadrado de aluminio de 22x22 mm en su parte perimetral, y de tubos circulares transversales de 18 mm para recibir el tejido con mas suavidad. Esta totalmente soldado y pintado texturizado con pintura en polvo al horno. El color de la estructura es el blanco.

Asiento y respaldo de una pieza de 49 cm de ancho en tejidos Sunbrella y Batyline, con insertos acolchados extraíbles.

NUA

Have you ever imagined a simple dress could become your relax sofa? Nua is this. A simple dressed up naked aluminum frame.

DESIGN:
FERRAN SERRA

DESIGN: FERRAN SERRA

**REF. 935****LOUNGE CHAIR**

NUA takes a step forward with a new model of armchair, where the cushions have more prominence; they are incorporated in the arms. Although the aluminum structure remains the same, NUA acquires a more compact armchair look. The new finishes for this new version, the NUA Soirée, are the acrylics Sunbrella Natté Silver Gray and Dusk.

OM UMBRELLA

Evoking the Mediterranean

Inspired by classic mediterranean canopies and umbrellas, Om brings a twist on a well-established product. Because of its innovative unfolding mechanism, the umbrella can be adapted to any need, wether it is fully, half or hardly open, providing different types of shade for every position.

SENYORA PEPA LOUNGE ARMCHAIR

*An origami-like seating system
that is incredibly flexible.*

Different material and frame combinations define the Senyora Pepa seating collection. The covers can be removed and changed in an instant.

Each with its own distinctive personality, they can easily feel at home indoors and outdoors, enjoying the Mediterranean sun or keeping warm by a wood-burning stove.

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

STACKABLE LOUNGE CHAIR

The structure is formed by 12mm steel rods that are bent to meet tangentially. Carefully spot-welded, this minimises the amount of joints. Galvanised and then powder coated in the oven, this gives it an anti-oxidant protection.

Where the structure meets the ground, round corners are protected with nylon feet.

The seat and backrest are both 65cm wide in Sunbrella fabric with removable padding. Cushions in laminated Sunbrella fabric with heat-sealed seams.

**STACKABLE CHAIR**

The structures are made of 12 mm diameter stainless steel tube that connect straight sections with curved sections, joined by careful welding to minimize the joints. The finish is given with the powder paint in the oven, after treatment of antioxidant protection based on galvanized.

The feet are formed by spokes, all equal, which allow the coupling of nylon stops with the shape of the radius of the tube and thus avoid direct contact of the metal with the pavement.

Seat and back of a 43 cm wide piece in Sunbrella fabrics, with removable padded inserts.

TRAMA

A reinterpretation of the typical Spanish “gelosia”, a modular ceramic outdoor architectural feature.

Trama is unique as it is the first in its kind not to produce double-wall thicknesses when built-up. It also allows varying levels of transparency depending on the way the individual pieces are configured.

DESIGN:
ANDREU CARULLA

DESIGN: ANDREU CARULLA

TRAMA

Natural ceramic accessory, of small sizes to be mounted in different positions to offer lattices and transparencies of different sensations and aspects.
